

Sustainable Development in Rural areas of Uzbekistan

IMPLEMENTING PARTNERS

Ministry of Economic Development and Poverty Reduction of Uzbekistan
Implemented by: Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH in consortium with
ADECIA (until 12.2020, currently FranceAgriMer);
Bulgarian Centre for Entrepreneurship and Executive Development (CEED);
Italian Breeders' Association (AIA)

MAIN OBJECTIVE(S)

Enhancement of Living Standards in Rural Areas in Uzbekistan. Transfer of EU know-how and technologies in the agro-food value-chains in partnership with local authorities and economic players for further developing socio-economic potentials in rural areas of Uzbekistan.

BENEFICIARIES

Rural communities in Fergana, Andijan, Namangan, Jizzakh, Syrdarya and Kashkadarya regions, producer cooperatives, farmers, research institutes.

OVERVIEW

Improving sustainable rural development by 1) supporting income generation of rural communities. Development of commodity value-chains associated with agro-food sector within selected product groups in various sectors of agriculture. 2) sharing know-how to upgrade skills and technology base of local economic players: agribusiness, farmers and SMEs 3) supporting the strengthening of institutional capacities of local and regional authorities for planning of inclusive rural economic development.
